MotoGP[™]14

DISCOVER THE FIRST NEXT-GEN SCREENSHOTS ON PlayStation[®]4

*Feel the brand new graphics engine's power in the screenshots featuring
Gran Premio bwin de España- Jerez*

March 31st 2014, Milan – **Milestone**, one of the most recognized racing videogame developers and publishers for consoles and Windows PC[®], releases the first *HD* screen batch of **MotoGP[™]14 available** from **June 2014** on **Xbox 360[®]** video game and entertainment system from Microsoft, **Windows PC[®]**, **PlayStation[®]3**, **PlayStation[®]Vita** and on **PlayStation[®]4**.

“As promised before, here’s the first batch of screenshots released for MotoGP[™]14. As you can see this year’s graphics details are more detailed than ever. In a dynamic and fast racing game such as the MotoGP[™] one, visual effects and environments’ details are usually less perceived. That is why we wanted to capture the essence of the track with striking images, displaying how much our talented

artist's team, thanks to the technical potential of next-gen platforms, is able to replicate realistic and photographic environments as never done before", affirms Andrea Basilio, Game Director at Milestone. "Please find the range of screen shots and all the latest news on our Facebook's gallery or our official web site and give us your feedback" concludes Basilio.

Gran Premio bwin de España- Jerez: Built in 1986 and hosting its first Grand Prix one year later, the circuit of Jerez is now one of the most popular MotoGP™ venues and the focal point for a city fanatical about sport. Set in a slight valley in the south of Spain, Jerez is blessed with consistently good weather and beautiful scenery, its numerous grandstands providing the perfect viewing facilities for up to 250,000 spectators. With **two alternative road circuits (4,423m and 4,428m)**, which were resurfaced during 2005, Jerez is a popular venue used by many race teams for testing throughout the year, whilst its recently updated corporate and media facilities have proven to be a popular addition to the complex. Other facilities such as the control tower and pit boxes have also been vastly improved.

MotoGP™14 features tracks and riders from the official MotoGP™ 2014 season, the riders from **MotoGP™ 2013** class and **Champions from the past**, plus **more than 100 riders, all the official manufacturers** and **18 tracks**.

Developed by Italian Milestone Studio, MotoGP™14 will be available from June 2014 on **Xbox 360®**, **Windows PC®**, **PlayStation®3**, **PlayStation®Vita** and on **PlayStation®4**.
